

# PHP Open Source Solution

## Complete web solution through a proper way

## We have got a perfect key & tool for you

### Portfolio

## What we do...

24x7Solution Enterprises, is professional web development and offshore outsourcing company based in India. We offer a wide range of services to reach your targeted audience and share your valuable information focusing on retaining your customers. Our service includes Web application development, Website designing, E-commerce solutions, Application development, maintenance, and re-engineering, Mail gateways, Web hosting solutions, Search Engine Optimization, Mobile Web and application development, Handheld and Smart phones Applications and Flash development.

### Our Projects

Our experience on the **open source technologies** is extensive. From bespoke solutions to customizing various off-the-shelf packages we have practiced most of them. Our project portfolio includes e-commerce solutions, travel portals, social networking solutions, business applications, **content management solutions**, CRM, classifieds, real estate portal, multilingual website and a whole lot more. We lay emphasis on delivering high quality open source solutions like PHP application development, Joomla development, Drupal solutions, B2B open source solutions, ecommerce website development and also establishing, maintaining long term relationships with clients.

### Technologies We Use

Our core strength lies in delivering **open source solutions** on the open source platform using LAMP technology (PHP/MySQL) and Rich Internet Application. We (PHP development Company) are not restricted to any one technology but are open to adopting and using new technologies. Our areas of expertise includes, but is not limited to, **PHP, Perl, Ruby, MySQL, PostgreSQL, cakePHP, Zend Framework, ROR, Joomla!, Drupal, SugarCRM, Magento, Moodle, AJAX, JSON, extJS, Flex and AIR.**

### Services We Offer

Our core strength lies in the delivery of solutions on the open source platform. Offering **open source cms services** to clients across domains and verticals, our design and development services range from providing bespoke custom solutions; integrating and customizing open source applications like Joomla, Drupal, Sugar CRM etc; rich internet applications, remote server administration and migration services like static to dynamic sites and PHP4 to PHP5. Our Website Development Team (dedicated php mysql programmer, drupal developer, joomla developer, sugarCRM consultant, Ruby on Rail developer) can produce high quality secure and dynamic website applications.

### Industries We Serve

Our clientele is diverse and spread across multiple domains, verticals and countries. Real estate, retail, travel, publishing, online gaming, community and education are some of the industries that we serve. Our (PHP development Company) team consists of experienced engineers, techies and managers (cms php web developers, cms php web programmers, cms php web designers) who bring with them experience and expertise to deliver industry specific solutions.

I have been associated with 24x7Solution for last one years and they manage all my IT applications that are so "Central" to my customers and my businesses. It has been 'fantastic' till date and we have built a great relationship with Harish, Brajesh & team.

Harish  
Director  
KoriSamajMatrimony.com

"24x7Solution has provided my company with a cost effective solution for our development needs. Not only are they more affordable than other development firms, the quality of work they produce is phenomenal. They are extremely knowledgeable in a wide range of development services and know what it takes to get a job done right. I have worked with them on several projects in the past and plan to continue doing so for future development. I highly recommend working with 24x7Solution for your development needs."
